

## Testimonials:

"I was referred over to Tim Walsh by a friend of mine who had very positive things to say about him. I was very impressed after my first visit, at which point Tim and I sat down and talked about my desire to ween off Effexor XR and Seroquel. Tim carefully listened to what my concerns were. He was so thorough in his evaluation before coming up with a plan as to how I would safely ween off my medication. Tim recommended a number of natural supplements/vitamins that aided me in my "withdrawals" and made the process much more tolerable. He also suggested acupuncture, which I tried for the first time and found to be beneficial. I had been taking pharmaceutical medications for almost seven years, but now (after a number of visits with Tim) I am prescription drug free. It has been over three months and I'm feeling great!

Tim Walsh worked with me several times using LASER acupuncture which was amazing, but even more amazing was Tim's Qi Kung energy work. I am very sensitive to energy and I could feel Tim working on very specific parts of my body--even though he was not touching me. The energy he uses is very clear, and very powerfully healing. Tim was also a great listener and intuitive.

You are the best acupuncturist I've ever had. You really have a special gift.

Many blessings  
Sally C.

When I first came to you in 2005, referred by my physician, Dr. Prudence Hall, MD, in Santa Monica, California, I had been suffering for decades from poor digestion, hormone imbalance, low energy, poor digestion, severe sinus and food allergies, and a general feeling that my system was out of balance. As a result of your patient and thorough assessments, in-depth conversations with me, and individualized treatment plans, including nutrition, herbs and supplements, over the course of about one year or less, I began to experience a state of health and well-being that I have never known before.

A large part of my progress was related to the acupuncture treatments I received from you. I have experienced a number of practitioners over the years, and you are, without question, the most deeply intuitive and gifted acupuncturist I have ever encountered. You are a true healer.

I also want to say that I have never known a male doctor or practitioner who is as attuned to women, and understands women's bodies and emotions, like you do!

I will miss you and miss being able to refer family and friends into your care. But, I know that you are on your Path, and I wish you countless blessings!

Laura C.

I started seeing Tim when I had just had a miscarriage. I was really down in the dumps and I was full of physical and emotional pain. Tim was great at listening to my issues and I felt no judgment, only empathy and concern. My back was in severe pain, where I couldn't sit or get up without excruciating pain. After the first visit, I was able to do this everyday task with no pain. Emotionally, Tim knew exactly what the prescription was to help with my 24 - 7 anxiety. When I finally got pregnant again, my doctor told me it was probably the treatment I was getting with Tim that helped me get pregnant so quickly! I am grateful for what he has done for me and would recommend him to my nearest and dearest. Thanks Tim for the health you helped me get back!
